Estimated Cost \$ \_\_\_\_\_

Signature of owner or authorized representative:

Address: \_\_\_\_\_

PERMIT NO. \_\_\_\_\_

ISSUE DATE \_\_\_\_\_

PERMIT FEE \_\_\_\_\_

APPLICATION APPROVED BY: \_\_\_\_\_

## **Instructions for Demolition Permit Application:**

*Note: The purpose of the completed demolition permit is two-fold. First, it is to insure that a structure is demolished in a safe manner. Second, it serves to notify the Assessors that the particular structure no longer exist, so that it can be removed from the tax rolls.*

1. Submit separate Building Permit application for each structure detailing location of property, owner, contractor with construction supervisor license, footprint size of building to be demolished, cost, etc.
2. On reverse of application or on separate sheet, list Workmen's Comp Insurance and Liability insurance for all contractors and subs, or owner's insurance if covering project.
3. Submit letters from all utility companies (water, sewer, electric, gas, telephone, etc.) Indicating that all utilities under their jurisdiction have been disconnected for this structure.
4. Submit check for demolition permit fee (currently \$30.00 per permit-residential / \$50.00 per permit-commercial)
5. Check with Board of Health as to requirements for removal of special materials such as asbestos, etc. as well as requirements for filing with Mass. Dept. of Environmental Protection (DEP)
6. When all of the above have been accomplished, the demolition permits can be issued.
