BRIDGEWATER TOWN COUNCIL
Tuesday, June 4, 2019
7:30 p.m.
Academy Building
66 Central Square
Council Chamber, Room 203
Bridgewater MA

MEETING AGENDA

A. APPROVAL OF MINUTES FROM PREVIOUS MEETINGS
   a) May 21, 2019

B. ANNOUNCEMENTS FROM THE PRESIDENT

C. PROCLAMATIONS

D. CITIZEN OPEN FORUM

E. APPOINTMENTS
   a) Water & Sewer Board – Joseph Bracken
   b) Board of Heath – Patricia Neary

F. HEARINGS
   a) 7:35 p.m.: Order O-FY20-010: FY2020 Supplemental Appropriation
      At their meeting held 3/13/19, the Finance Committee voted 5-0 to approve this measure. On 5/14/19, the Budget & Finance Committee voted 2-0 to recommend approval. This measure has been duly advertised in the Enterprise and on the Town's website for a public hearing and may be finally considered at the conclusion of the hearing.

G. LICENSE TRANSACTIONS
   a) Petition P-2019-010: Common Victualler's License - Mike Shea's Coffee

H. PRESENTATIONS
   a) FY18 Audit – Roselli, Clark & Associates

I. TOWN MANAGER’S REPORT
   a) Update on House on Lake Nippenicket
   b) B-R School District Regional Agreement Update
   c) Items for Next Meeting

J. DISCUSSIONS
   a) Standing Discussion Items:
      i. Mitchell School Update – Town Manager

K. COMMITTEE REPORTS

L. LEGISLATION FOR ACTION

M. OLD BUSINESS

N. NEW BUSINESS
   a) Order O-FY19-059: Loan Order - Amend Order O-FY19-041: Loan Order - Elm Street Project (Town Manager)
   b) Order O-FY19-060: Order of Taking - Property on Elm Street (Town Manager)
   c) Order O-FY19-061: Transfer Order - Notice of Intent - Municipal Separate Storm Sewer System (MS4) (Town Manager)
   d) Order O-FY19-062: Transfer Order - Funding for Clearing Out Town Hall and Highway Barn (Town Manager)
   e) Order O-FY19-063: Transfer Order - FY19 End of Year Transfers (Town Manager)
   f) Order O-FY19-064: Accept Permanent Easement - Elm Street (Town Manager)
g) Order O-FY19-065: Accept Permanent Easement - Elm Street (Town Manager)

h) Order O-FY19-066: Accept Permanent Easement - Elm Street (Town Manager)

i) Order O-FY19-067: Accept Permanent Easement - Elm Street (Town Manager)

j) Order O-FY19-068: Accept Permanent Easement - Elm Street (Town Manager)

k) Order O-FY19-069: Accept Permanent Easement - Elm Street (Town Manager)

l) Order O-FY19-070: Accept Permanent Easement - Elm Street (Town Manager)

m) Order O-FY19-071: Accept Permanent Easement - Elm Street (Town Manager)

n) Order O-FY19-072: Transfer Order - Elm Street Land Taking (Town Manager)

By Marc Larocque
THE ENTERPRISE

The proposed Brockton Regional school budget for FY2020 was sent to the mayor for his review in late April, but he has not returned the document yet. The deadline to present the document to the Bristol-Plymouth Regional School District was Wednesday, May 15.

The proposed budget, which was presented to the Bristol-Plymouth Regional School District last month at Sulivan Town Hall, contains increases from a few vocal members of the audience who petitioned it into consideration.

Bridgewater Town Council
In Town Council, Tuesday, June 4, 2019
Council Order: O-FY20-010

Order O-FY20-010

FY2020 SUPPLEMENTAL APPROPRIATION

ORDERED that to provide for the payment of certain expenses of the Town for the Fiscal Year ending June 30, 2020;

The Town will raise and appropriate and vote into tax, to be assessed per law and/or appropriate and transfer from the following available funds:

- Remaining Funds from O-FY18-043 BRRSD Capital FY19 of $135,329.00

For the operations of the Town and further that such appropriation in the amount of $335,329, be for such purposes, each Department and group being considered a separate appropriation as shown below:

- Dept 300 Bridgewater Raynham Regional School District Expenses: $ 98,000.00
- Dept 300 Bridgewater Raynham Regional School District Capital: $135,329.00
- Dept 420 DPW Salaries/Wages/Benefits $ 53,000.00
- Dept 420 DPW Expenses $ 49,000.00

To supplement the Town Manager’s FY2020 budget, this supplemental appropriation funds the BRRSD FY2020 assessment with “new growth” revenue and existing capital funding. It also adds one additional DPW highway employee, and increases expenses in DPW to begin to pay for compliance with new stormwater regulations, storm cleanup, tree trimming, etc.

The Honorable Members of the Town Council
Town of Bridgewater
Bridgewater, Massachusetts

In planning and performing our audit of the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Town of Bridgewater, Massachusetts, (the “Town”) as of and for the year ended June 30, 2018, in accordance with auditing standards generally accepted in the United States of America, we considered the Town’s internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Town’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

This communication is intended solely for the information and use of management, the Board of Selectman, and others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.

Roselli, Clark & Associates
Certified Public Accountants
Woburn, Massachusetts
November 21, 2018
I. OVERVIEW

Fiscal year 2018 proved to be another financially positive year for the Town. The median household income within the Town is over 20% higher than the statewide median and its unemployment rate dipped to 3% during the year.

The Town ended the year with approximately $8.4 million in unassigned fund balance which was $2.8 million higher than the prior year due to conservative revenue estimates and increased funding of various stabilization funds.

These results continue the recent trend of positive unassigned fund balances. We would recommend that the Town’s adhere to its adopted free cash policy that calls for free cash to be utilized primarily for one-time capital purchases, stabilization funds and other post-employment benefits liabilities that will ensure the Town builds on its positive momentum in developing solid reserve levels.

A common budgetary flexibility test used by the Standard and Poor’s, a rating agency used by many bond issuers, when conducting a credit evaluation is called a reserve ratio. The ratio is calculated by adding general fund assigned and unassigned fund balances presented in the financial statements and dividing this by the general fund expenditures. 15% is considered tier one and 8% - 15% is considered tier two. The Town’s ratio is 15.6% which places the Town in the tier one level. This is a fantastic achievement for a Town that not too long ago was near zero in reserves. This metric represents 10% of the overall credit profile and will contribute towards a possible increase in bond rating. This reserve ratio is a goal that the Town has been evaluating and we congratulate the Town on this achievement. In order to maintain the positive trend in its reserve ratio the Town must be cognizant that planned expenditure growth does not exceed estimated future revenues. The Town’s bond rating is important, as maximizing the bond rating will minimize the cost of future borrowing for the Town.

The remainder of this report is intended to provide the Town and its management with recommendations for improvement in accounting and financial operations and informational items. The Town should review these recommendations and informational items, and, if determined to be cost-effective, implement these improvements.
II. INFORMATIONAL ITEMS

Statement on Auditing Standards No. 115 – Audit Communications

The American Institute of Certified Public Accountants (“AICPA”) in 2009 issued Statement on Auditing Standards No. 115, Communicating Internal Control Related Matters Identified in an Audit (“SAS 115”). SAS 115 establishes new standards and provides guidance on communicating matters related to an entity’s internal control over financial reporting identified in an audit of financial statements. In particular, SAS 115 provides guidance on evaluating the severity of deficiencies in internal control identified in an audit of financial statements in the following order:

1. Deficiency in internal control
2. Significant deficiency
3. Material weakness

Deficiencies identified as significant deficiencies or material weaknesses are required to be communicated to those charged with governance. Deficiencies in internal control are not required to be communicated; however, we have chosen to also report that type of deficiency in this report.

We did not deem any of the findings in this report to be categorized as either a significant deficiency or a material weakness.

Other Postemployment Benefit Liability

As discussed in our previous letter to management, the Town was required to adopt a new accounting standard related to OPEB in fiscal year 2018. Since fiscal year 2009, the Town had been reporting an OPEB obligation in its government-wide financial statements. Essentially, the OPEB obligation was the accumulation of shortfalls between the amount the Town should fund an OPEB plan (its annual required contributions) and the amount the Town paid on a pay-as-you-go basis. The adoption of the new OPEB accounting standards required the Town to actuarially determine the present value of its future OPEB liability and record this liability, net of any OPEB trust funds, in its government-wide financial statements.

As expected, the adoption of this new accounting standard materially affected the Town’s financial condition. A prior period restatement of approximately $22.6 million was made to the beginning net positions of the Town’s governmental and business-type activities. At June 30, 2018, the Town’s net OPEB liability was approximately $40.7 million.

The Town established an OPEB trust fund several years ago and has contributed approximately $225,000 into it from its inception. As it stands at June 30, 2018, the OPEB trust fund is approximately 0.6% funded.

The Town should work with its actuary to develop policies to manage this net OPEB liability. For example, the current discount rate used in the calculation is under 4%. This could be improved through some policy implementations such as:
1. A policy that at the point the Town’s pension liability is fully funded, to divert those funds to OPEB. This will be a windfall that would provide much needed contributions and expedite the fully fund date.

2. A policy to commit to $100,000 in additional contributions per year plus the normal cost of new employees. This will avoid the fund ever running out of money.

3. Any possible health care design changes that have not been implemented.

Thinking outside the box, some simple policy changes could provide a significantly reduced liability.

**Bond Rating**

Future improvements to infrastructure and other capital outlays may increase the need for the Town to issue bonds through capital markets. As a result, the Town’s bond rating is important to not only gain perception as a well-run community, but also to be able to issue bonds to investors for a lower interest rate. This will ultimately lead to reduced financing costs for the Town.

The Town’s financial condition is an important component of the Town’s credit rating; the Town has been annually rated by Moody’s Rating Agency for many years and has been rated A1 since 2016. This is an average rating when compared to its peers. However, the Town has the financial condition of a Town that could move higher in rating. Receiving a credit evaluation from a “new set of eyes” such as Standard and Poor’s could be a way to increase bond rating. Each rating agency uses its own set of metrics and a fresh set of metrics could benefit the Town. We understand the Town is evaluating using Standard and Poor’s on its next rating and we encourage this.

New Standard and Poor’s ratings factors highlight seven areas from which a community’s debt is rated. We discussed the budgetary flexibility aspect of the bond rating in the Overview section; another very important and controllable metric includes an evaluation of management and its effectiveness. This is evaluated based on the financial policies and procedures in place including budget policies, forecasting policies, reserve policies, investment policies, capital policies and debt policies. The management score counts 20% towards the rating evaluation and is rated on a scale of 1 to 5. A grade of 1 will strongly contribute toward upward pressure in the bond rating.

It is therefore imperative that the Finance Department review all of these factors in conjunction with the financial policies that are currently in place and develop or improve the financial policies that will contribute to a higher evaluation in this factor. Formal adoption by the Town Council of these policies will render their effectiveness stronger.

With respect to the other six factors; institutional framework, economy, budgetary flexibility, budgetary performance, liquidity and debt profile, the Town rates positively in all these factors.
III. FINDINGS AND RECOMMENDATIONS

RESOLUTION OF PRIOR YEAR RECOMMENDATIONS

The Town took action to reduce its outstanding tax title receivables by 28% through negotiating payments plans, identifying potential land of low value parcels, investigating the option of assigning certain tax title accounts and other collection procedures.

A full analysis of the Town’s overlay account was completed and the Town has begun to allocate the surplus balance in the account.

TAILINGS (continued from prior year)

The vendor account includes approximately $14,000 of old outstanding checks greater than one year old that should be moved to tailings. This represents a reduction from approximately $75,000 outstanding checks in the prior year; as well as the complete cleanup of all payroll account outstanding checks. Once these remaining checks are moved into tailings the Treasurer should initiate procedures under MGL c.200A s.9A to advertise the checks, with the monies reverting to free cash after the appropriate time has elapsed without being claimed.

Management Response:

To address this long-standing issue, we have broken this project, into Three Phases. The first Phase, identify and disposition record keeping issues, will be complete by the end of FY 2019. The second Phase, initiate procedure under MGL c. 200A s.9A, will be completed six months later, and the final Phase, the appropriate time lapse, will follow accordingly.

TRANSFER STATION (continued from prior year)

As reported in previous management letters the Transfer Station Enterprise Fund has run operating deficits in recent years, primarily the result of stagnant fee collections and appropriations exceeding budgeted amounts. The current fiscal year did see a 3.9% increase in revenues however not enough to offset increased costs. At year end, the retained earnings certified by the State were approximately $2,300. As a result any budgetary shortfalls in the near future will require supplemental funding from the General Fund. We recommend the Town develop a plan to eliminate structural deficits and to plan for the future of the Transfer Station operations.

Management Response:

This fiscal year, the Town has allocated financial and analytical resources to study, report, and recommend new rates for the operational and capital needs of the Transfer Station. The results of the study will be presented to the Town Manager so he can bring his final recommendation to the Town Council.
ACCOUNTING FOR SPECIAL FUNDS (continued from prior year)

We noted several items regarding the accounting for special funds that should be addressed by the Town:

- In the current year the Town had 55 Special Revenue Accounts totaling approximately $240,000 that did not have any activity during fiscal 2018. Approximately $95,000 of these funds are insurance proceeds or restitution that was not expended and should be re-appropriated for capital purposes or reverted to the General Fund. We suggest the Town analyze the remaining accounts in conjunction with the department heads to determine what accounts still have a purpose and dispose of those accounts whose purpose has expired as a one-time housekeeping entry.

- Performance bond balances as maintained by the Treasurer and as recorded in the general ledger varied by approximately $155,000. We recommend that the Treasurer/Collector’s Office and the Town Accountant work to identify the remaining differences, as the entire balance of these accounts should be maintained separately from the general cash of the Town.

- Currently, the Town maintains nearly 45 individual ledger accounts for funds received from developers and residents for consultant reviews that total approximately $54,000; however several of the individual funds appear to be in a deficit. We recommend that Town consolidate these funds and maintain a subsidiary ledger that can reconciled back to a master account/fund on the ledger. Any deficit accounts should be investigated and additional funds obtained if necessary.

Management Response:

Subsequent to the audit the Town has completed an analysis of the special revenue funds noted in this item. We have identified, in conjunction with the Director of the CED Department, those remaining balances which are accurate and those items needing to be reclassed. We will close out balances to the general fund, where appropriate, at year end.

ENTERPRISE FUNDS INDIRECT COSTS (continued from prior year)

The Town does not have a documented calculation of indirect costs that it assesses its water, sewer, golf and transfer station enterprise funds. In 2018, $336,178 was recorded as indirect costs. It is important to note that the Director of Accounts at the Department of Revenue may request documentation of the Town’s methodology and may reject the methodology and/or amounts appropriated for tax rate setting purposes if deemed unreasonable.

We recommend that the Town establish a formal indirect cost calculation that includes a cost pool of general and administrative expenses that are paid for by the Town and have a direct benefit to the individual enterprise funds such as treasury and accounting personnel, related supplies, technology resources and general liability insurance.
Management Response:

The Town has allocated financial and analytical resources to analyze and update this calculation in this FY 2019.

MAXIMIZING INVESTMENT RETURNS

Over the past ten years, the interest earned on bank deposits have not kept pace with inflation. Many bank depository accounts currently return less than 1%. However, there are a growing number of banks and financial institutions like the Massachusetts Municipal Depository Trust, or MMDT, that are financially stable and offer very liquid short-term investments with annual interest rates greater than 2%.

In fiscal year 2018, the Town’s general fund reported interest income of about $33,000. A review of the Town’s bank deposits at June 30, 2018 reveals that much of its non-trust fund deposits are in accounts bearing interest at 0.0% to 0.5%; with the outlier a bank account at Bridgewater Savings with over $1.275 million earning interest at 1.26%.

We recommend that the Town Treasurer evaluate the Town’s depository balances and accounts and evaluate the possible benefits of reallocating portions of the Town’s excess funds to stable financial institutions that offer very liquid safe short-term investments.

Management Response:

The investment focus during FY18 was the priority of the Town Stabilization and OPEB Funds. During such time long term investment accounts were established and invested in the market through Bartholomew & Company. Although not reflected directly in GF earnings these investments are vital to the Town’s overall cash position and future reserves.

The traditional accounts already in existence were reviewed thoroughly. The less than desirable rates have several driving factors. Many of which are a result of additional bank services offsetting rates. For example, the central depository, vendor and payroll accounts are offset by reconciliation support, electronic files, daily courier service, and other extremely valuable resources. Several other banks provide online banking functionality, lockbox processing, and additional services resulting in a lower rate of return. The referenced Bridgewater Savings rate was a promotional rate offered that we immediately engaged in.

This is a Treasury Department priority and the review process will continue in the best interest of the Town and our fiduciary responsibility.
HUMAN RESOURCE MANAGEMENT SYSTEM

Human resource and personnel documentation are mainly paper-based and are not integrated with the payroll system. Furthermore, these documents are not centralized to the extent possible and still reside in the multiple departments that process payroll and benefits. This condition does not ensure that the Town is compliant with all applicable laws and regulations. The Town has recently restructured its finance department and allocated more resources to this critical function; however, the appropriate software solution to manage the process has yet to be acquired.

Many municipal software solutions offer an HRM module as part of their systems. The primary benefit of a fully integrated HRM module would be to institute proper workflows within the payroll process and to maintain the associated records electronically within the payroll system. New hire additions, collectively bargained pay rate changes, step increases and other personnel actions would have specifically programmed workflows and approval levels to ensure that all payroll system changes are properly reviewed and maintained. Additional benefits of a HRM module include better resource planning for existing and open positions, a streamlined on-boarding process for new employees, the ability to run budget projections and what-if scenarios and to give the Town the ability to offer employee self-service options to its staff.

We recommend the Town investigate and purchase a fully integrated HRM solution for this critical Town function.

Management Response:

The Town has allocated financial and analytical resources to fully address and implement the HRM software within our existing financial software. This implementation will provide an integrated HR/Payroll interface and further ensure the Town is compliant with Federal, State and local reporting and regulations.
Order O-FY19-059

LOAN ORDER - AMEND ORDER O-FY19-041: LOAN ORDER - ELM STREET PROJECT

ORDERED, that Council Order O-FY19-041, which appropriated $6,500,000 and authorized borrowing to pay costs of the Elm Street reconstruction project, is hereby amended to increase said appropriation and borrowing authorization by $1,000,000, so that said order shall now read as follows:

ORDERED: That $7,500,000 is appropriated to pay costs of the Elm Street reconstruction project, including the payment of all costs incidental and related thereto (the “Project”), and that to meet this appropriation, the Treasurer, with the approval of the Town Manager, is authorized to borrow said amount under and pursuant to M.G.L. c. 40Q, M.G.L. c. 44, §7(1), or pursuant to any other enabling authority, and to issue bonds or notes of the Town therefor; that the Town Manager is authorized to contract for and expend any grants, aid or gifts available to pay costs of the Project and to take any other action necessary or convenient to carry out the Project. The amount authorized to be borrowed shall be reduced to the extent of any MassWorks Infrastructure Grants or any other grants received by the Town to pay costs of this Project. Any premium received upon the sale of any bonds or notes approved by this order, less any such premium applied to the payment of the costs of issuance of such bonds or notes, may be applied to the payment of costs approved by this vote in accordance with M.G.L. c. 44, §20, thereby reducing the amount authorized to be borrowed to pay such costs by a like amount.

CONTRACTOR SHALL CONFIRM THE LOCATION OF THE EXISTING GAS LINE PRIOR TO CONSTRUCTION. IF A UTILITY CONFLICT EXISTS, THE CONTRACTOR SHALL COORDINATE WITH THE GAS UTILITY COMPANY TO RELOCATE THE EXISTING GAS LINE.
GRANT OF EASEMENTS

______________________________, having an address of ______ Elm Street, Bridgewater , Massachusetts, with a mailing address of _____________________, for consideration paid of One Dollar ($1.00), grants to the TOWN OF BRIDGEWATER (“Grantee”), a Massachusetts municipal corporation, having an address of 66 Central Square, Bridgewater, Massachusetts 02324, with Quitclaim Covenants, for all purposes for which public ways are used, including, without limitation, constructing, improving, repairing, relocating, realigning and/or reconstructing Elm Street, located in Bridgewater, Plymouth County, Massachusetts, the following interests in land:

1. Permanent easements in, on, over, under and along the parcels of land on Elm Street, Bridgewater, shown as “_______” “_______,” “_______” (the “Permanent Easement Premises”) on a plan of land entitled “Bridgewater Elm Street Preliminary Right-of-Way Plans,” plotted on 11-Feb-2019, and recorded with the Plymouth County Registry of Deeds in Plan Book _____, Plan ______ (the “Plan”), for all purposes for which public ways are used in the Town of Bridgewater and for all uses necessary or incidental thereto, including but not limited to, constructing, operating, improving, maintaining, repairing, replacing, relocating, realigning and/or reconstructing Elm Street, including, but not limited to, drainage facilities, slopes of excavation and/or embankments, clearing and grading.

2. Temporary construction easements in, on, over, under and along the parcels of land on Elm Street, Bridgewater, shown on the Plan as “_______” “_______,” “_______,” (the “Temporary Construction Easement Premises”) for the purpose of undertaking the construction, repair and replacement of Elm Street, and for all uses necessary or incidental thereto, including, without limitation, grading land, operating, improving, maintaining, repairing, replacing, relocating, realigning and/or reconstructing slopes of excavation and/or embankment, clearing, landscaping, loaming and seeding, rip rap, paving, and/or erosion control. Said temporary construction easements shall terminate automatically three (3) years from the date on which this Grant of Easements is recorded with the Plymouth County Registry of Deeds without the necessity of recording any instrument with said Deeds. Nothing in this paragraph shall affect the permanent easements conveyed to Grantee hereunder.

Grantee shall have the right of entry upon and passage over the Permanent Easement Premises and the Temporary Construction Easement Premises (together, the “Easement Premises”).
Premises”) from time to time by foot and motor vehicles, including heavy equipment, for all uses necessary or incidental thereto. Grantee shall have the right to remove any structures, objects, utilities and/or vegetation (including trees and shrubs) now or hereafter located within the Easement Premises as may be necessary or convenient to exercise the easements granted hereunder. Grantor agrees not to place, or cause to be placed, any temporary or permanent buildings or structures on or upon the Permanent Easement Premises or, during the term of the temporary easements, on or upon the Temporary Construction Easement Premises, that unreasonably affect the rights granted to Grantee hereunder. Nothing herein shall impair Grantor’s ability to place any facilities under the Easement Premises.

Grantee shall restore the Easement Premises to their condition prior to the exercise of the rights granted hereunder as closely as practicable.

All rights and privileges herein granted, including all benefits and burdens, shall run with the land and shall be binding upon and inure to the benefit of the parties hereto and their successors and assigns.

For Grantor’s title, see deeds recorded with the Plymouth County Registry of Deeds in .

Grantee’s acceptance of this Grant of Easements is attached hereto and incorporated herein.

ACCEPT PERMANENT EASEMENT - ELM STREET

WHEREAS, 1050 ELM STREET REALTY TRUST, Stephen A. and Peter C.J. Varrasso Trustees, owns a parcel of land located at 1050 Elm Street, described in a deed to Grantor recorded with the Plymouth County Registry of Deeds in Book 46931, Page 106. (the “Grantor Property’); and

WHEREAS, the Town has requested from Grantor an easement upon the Grantor Property for the purpose of constructing, operating, improving, maintaining, repairing, replacing, relocating, realigning and/or reconstructing Elm Street, including, but not limited to, drainage facilities, slopes of excavation and/or embankments, clearing and grading, said easement shown as “Parcel No. D-9,” (the “Permanent Easement Premises”) on a plan of land entitled “Bridgewater Elm Street Preliminary Right-of-Way Plans, Sheet 14 of 14” plotted on 11-Feb-2019, prepared by VHB, Inc., attached hereto as Exhibit A, and incorporated herein (the “Plan”); and

WHEREAS, the Grantor is willing to grant the Town a temporary and perpetual easement, in gross upon the Grantor Property, for the purpose of constructing, operating, improving, maintaining, repairing, replacing, relocating, realigning and/or reconstructing Elm Street, including, but not limited to, drainage facilities, slopes of excavation and/or embankments, clearing and grading, as shown on the Plan, in the form of a Grant of Easement, attached hereto as Exhibit B, and incorporated herein; and

WHEREAS, the Town is willing to construct, operate, improve, maintain, repair, replace, relocate, realign and/or reconstruct Elm Street, including, but not limited to, drainage facilities, slopes of excavation and/or embankments, clearing and grading upon the Grantor Property, at the Town’s sole cost and expense; and

WHEREAS, the Town Manager, under the Home Rule charter of the Town known as the Town of Bridgewater, is charged with the responsibility for developing and maintain a full and complete inventory of all town-owned real and personal property;

NOW THEREFORE BE IT ORDERED: That, the Town Council of the Town of Bridgewater does hereby vote to accept a perpetual easement, in gross upon the Grantor Property, for the purpose of constructing, operating, improving, maintaining, repairing, replacing, relocating, realigning and/or reconstructing Elm Street, including, but not limited to, drainage facilities, slopes of excavation and/or embankments, clearing and grading at its sole cost and expense.

NOT FOR ACTION – FIRST READING ONLY.
AND FURTHER, the Town Council hereby authorizes the Town Manager to accept and/or acquire a Grant of Easement, in the form attached hereto as Exhibit B.

Order O-FY19-072

TRANSFER ORDER - ELM STREET LAND TAKING

ORDERED, in accordance with Section 6-4 of the Bridgewater Home Rule Charter, that the Town Council assembled vote to transfer and appropriate the following funds for the purposes as intended:

<table>
<thead>
<tr>
<th>Source of Funds</th>
<th>Account No.</th>
<th>GL Account Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>HWY Department-Salaries</td>
<td>510000</td>
<td>Full Time Salaries</td>
<td>$11,000.00</td>
</tr>
<tr>
<td>Total</td>
<td></td>
<td></td>
<td>$11,000.00</td>
</tr>
<tr>
<td>Use of Funds</td>
<td>Account No.</td>
<td>GL Account Description</td>
<td>Amount</td>
</tr>
<tr>
<td>Land Taking</td>
<td>580010</td>
<td>Land-Taking</td>
<td>$11,000.00</td>
</tr>
<tr>
<td>Total</td>
<td></td>
<td></td>
<td>$11,000.00</td>
</tr>
</tbody>
</table>

Explanation: This transfer pays for the “friendly” taking of land from National Grid in order to enlarge and complete the intersection at Elm and Pleasant Streets.
